Azimuth final label

Azimuth medium label

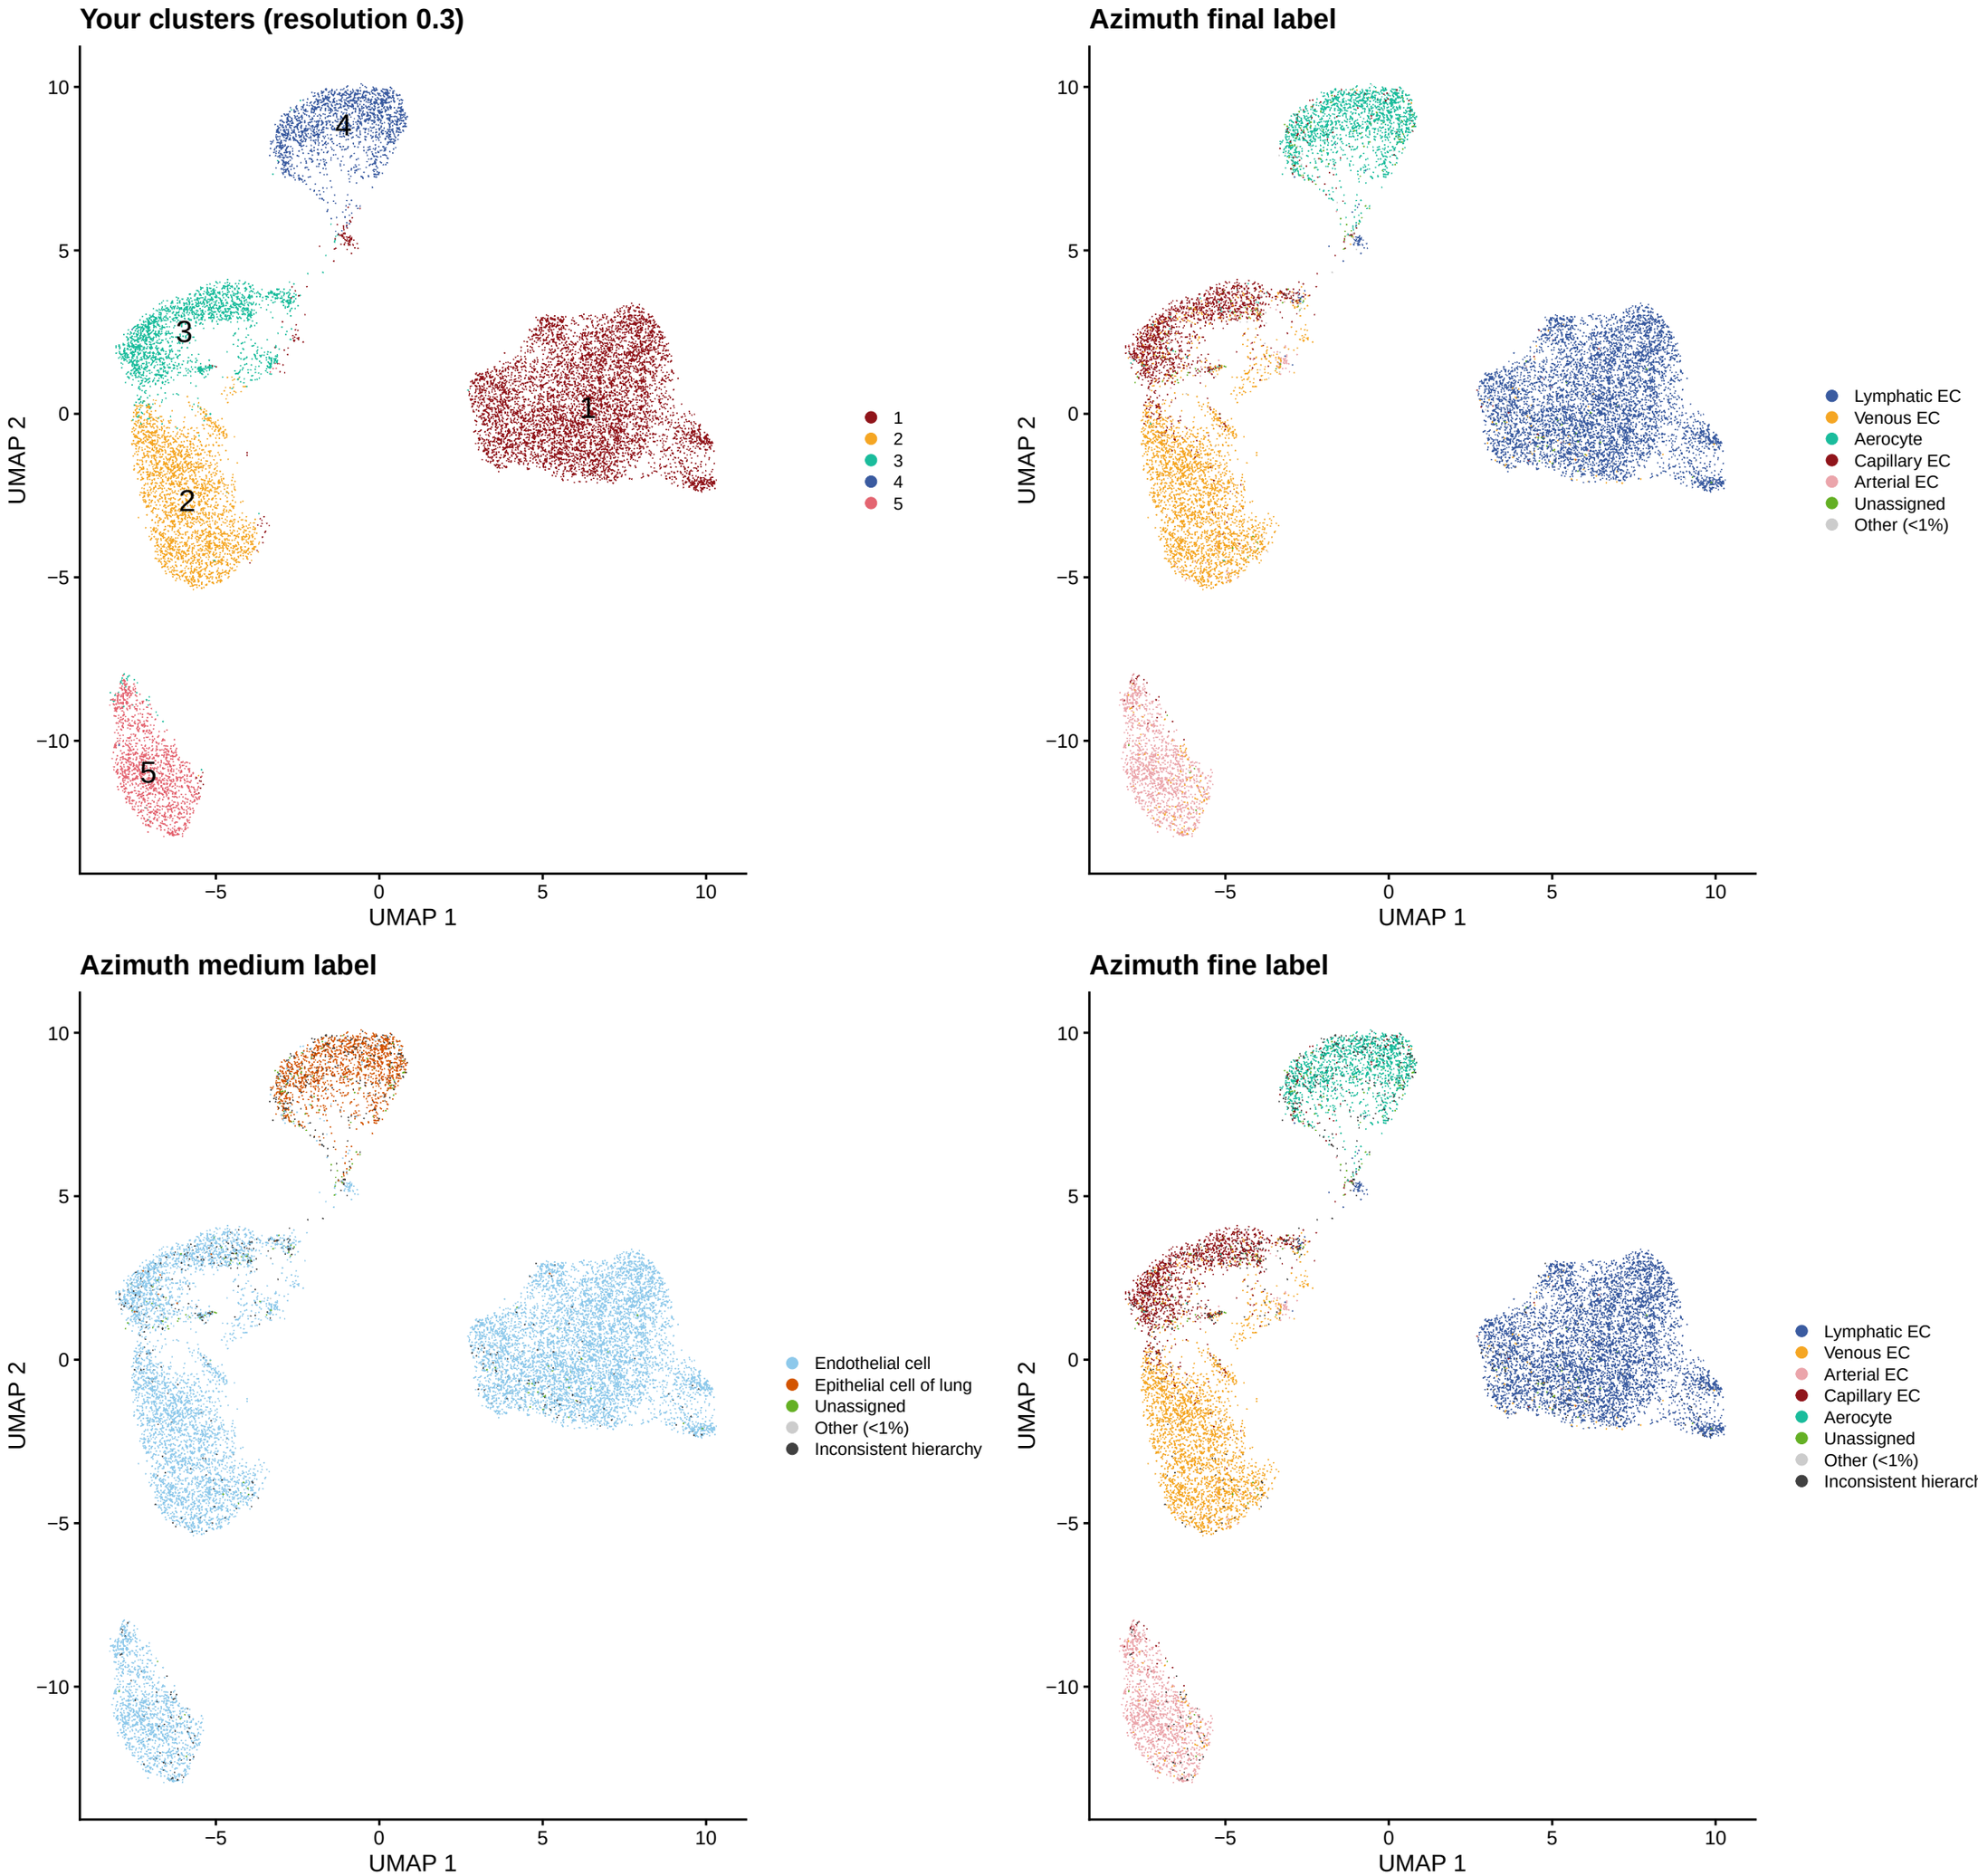

Azimuth fine label

Pan−human Azimuth v1, run locally; pig features enter through verified one−to−one Ensembl 116 orthologues, unmapped model genes are zero−filled. Exploratory cross−species labels.

Endothelial (job 44831031), resolution 0.3

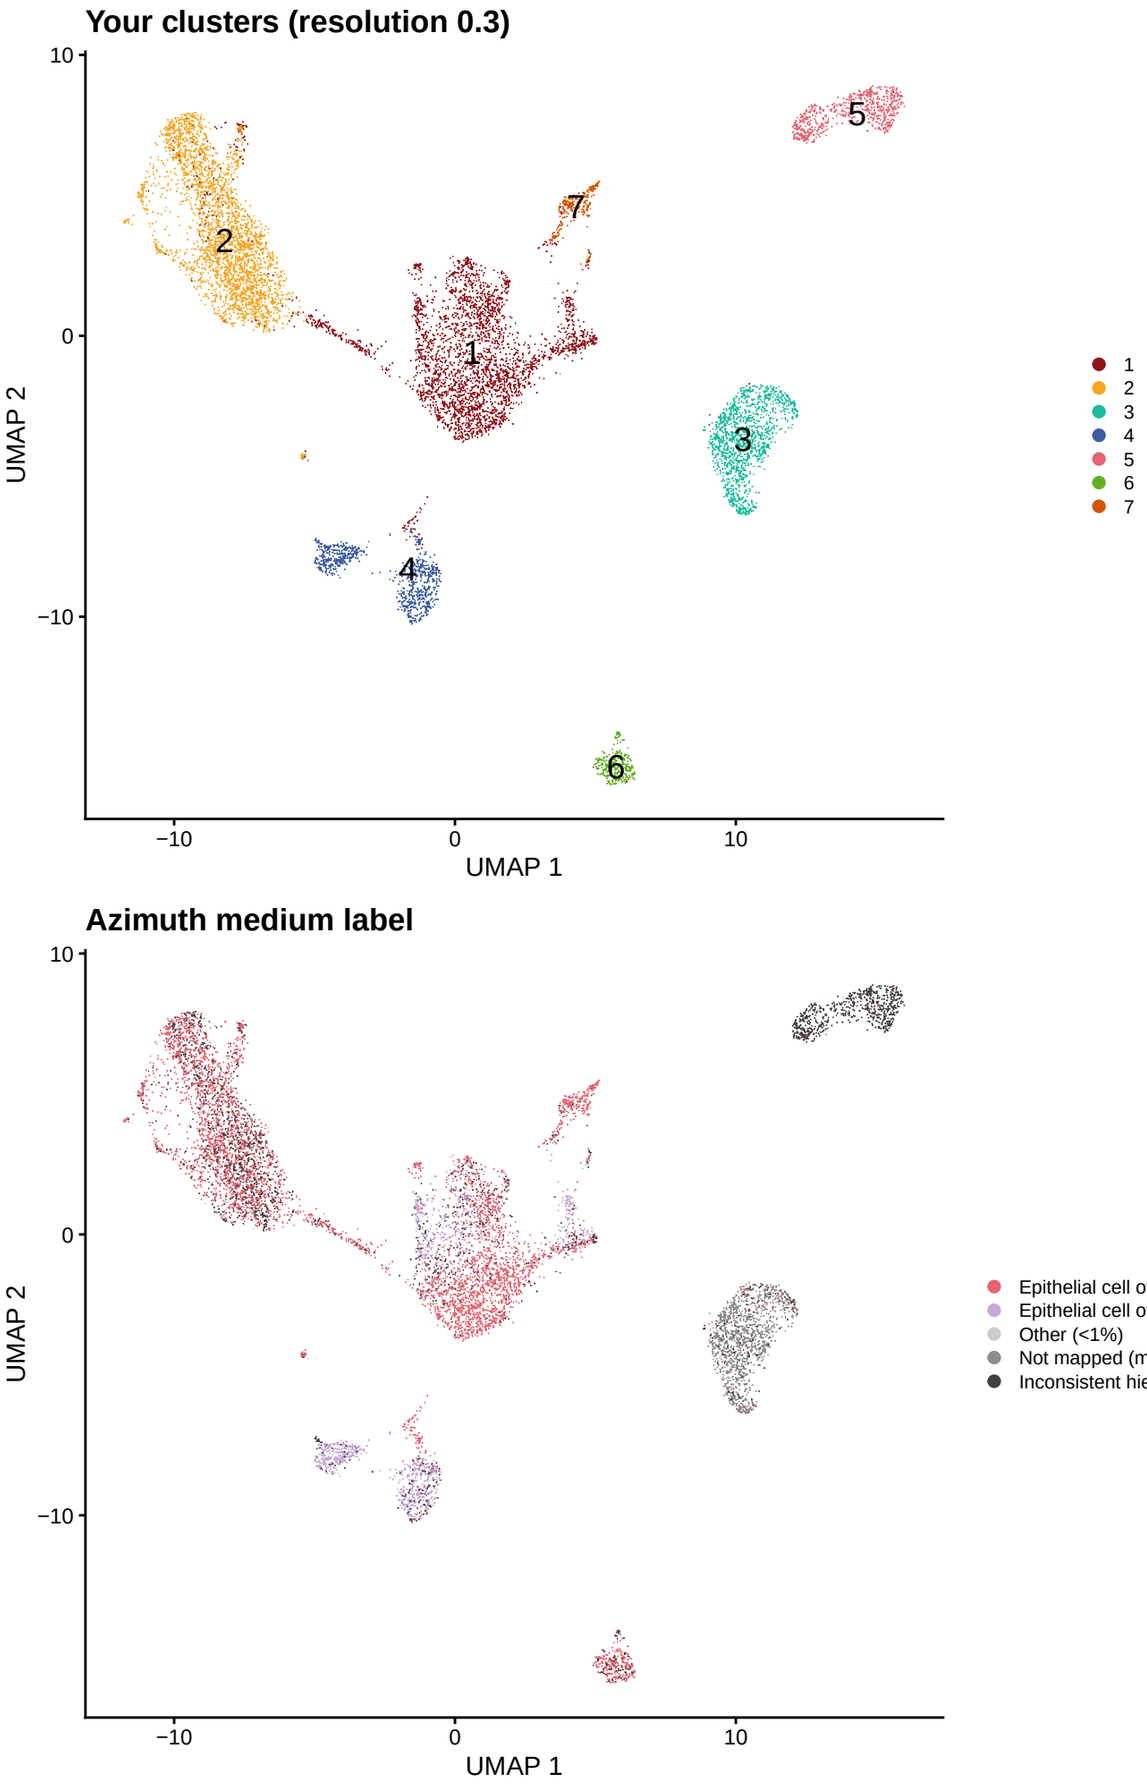

13,836 cells | median confidence 0.99 | consistent hierarchy 95% | model genes mapped 3958/5055 | labels below 1% of cells shown as Other

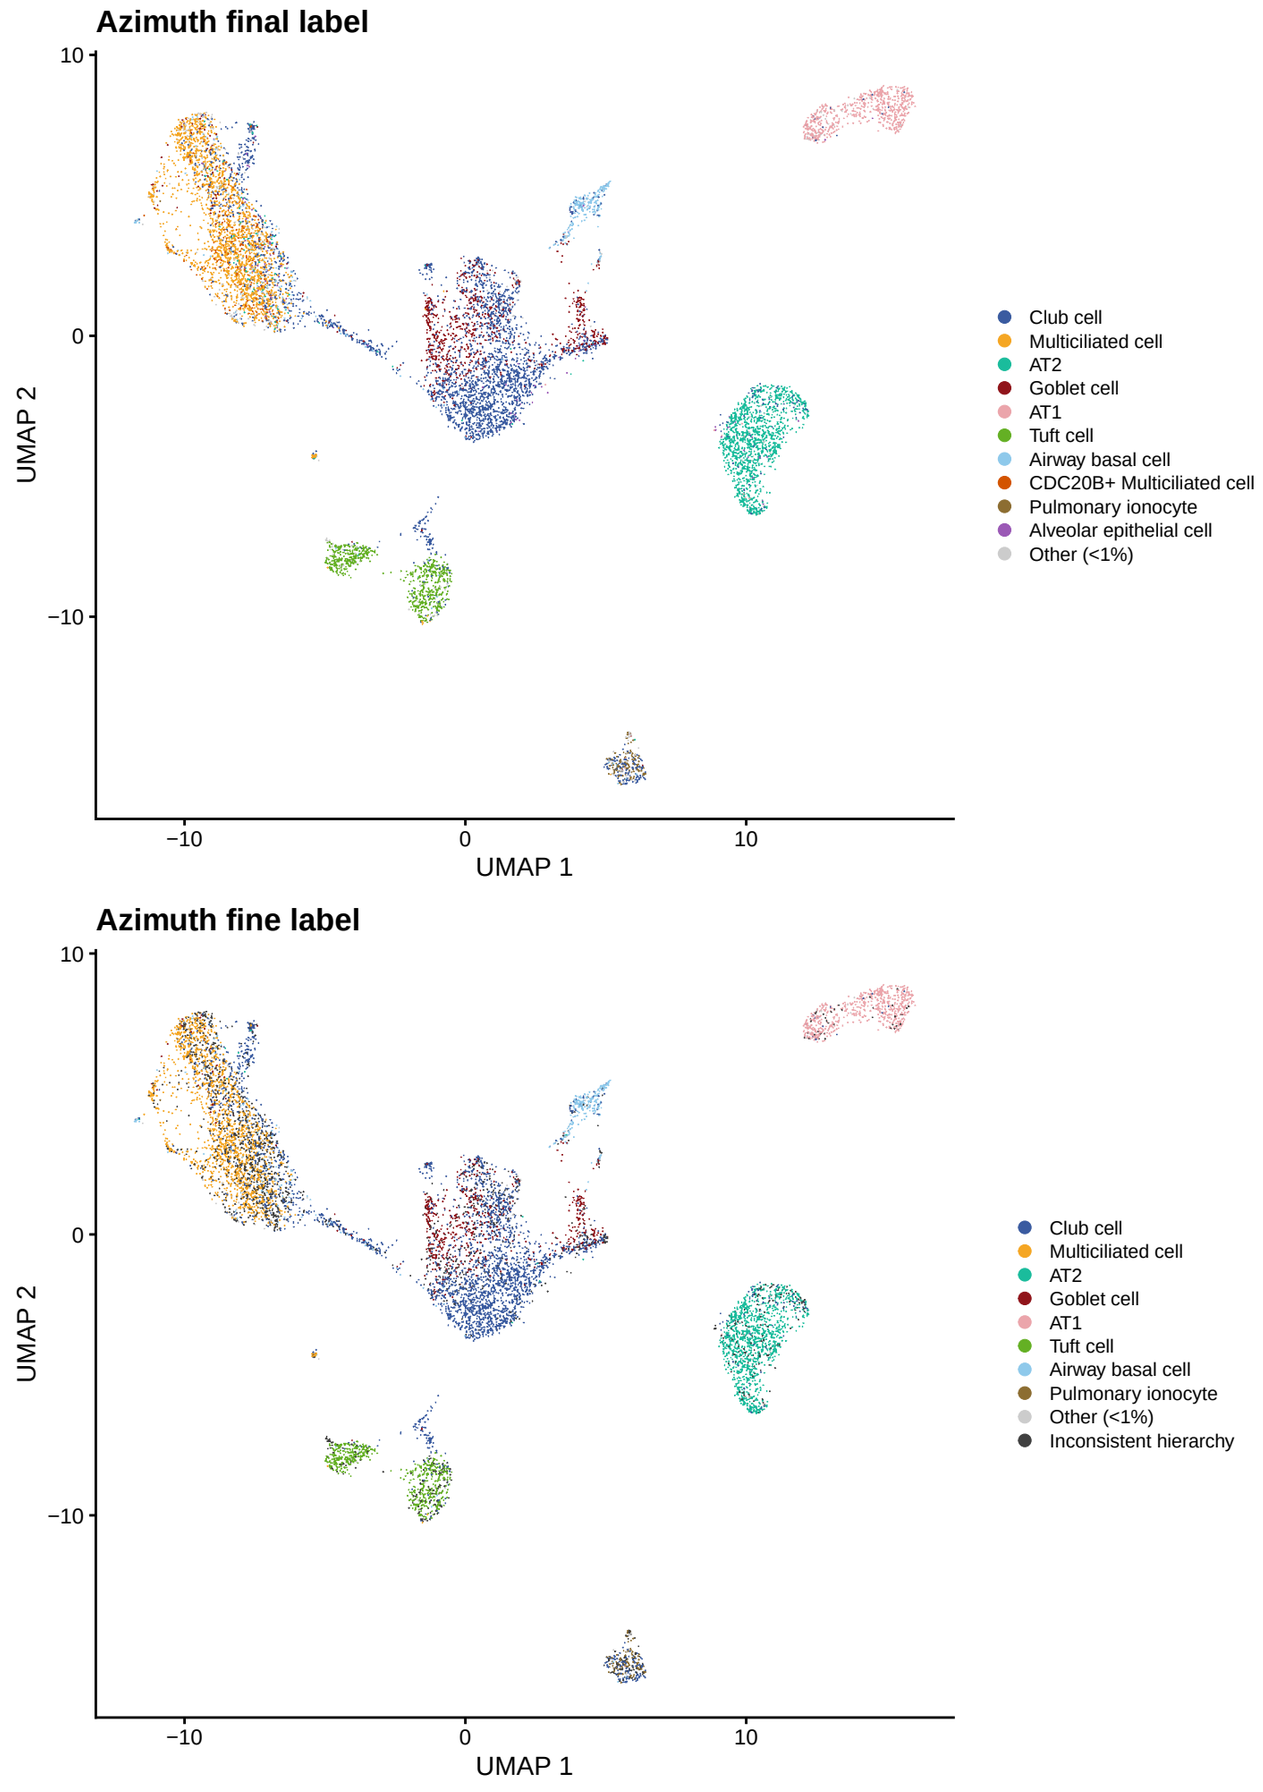

Pan−human Azimuth v1, run locally; pig features enter through verified one−to−one Ensembl 116 orthologues, unmapped model genes are zero−filled. Exploratory cross−species labels.

Epithelial (job 44831032), resolution 0.3

9,426 cells | median confidence 0.86 | consistent hierarchy 82% | model genes mapped 3958/5055 | labels below 1% of cells shown as Other

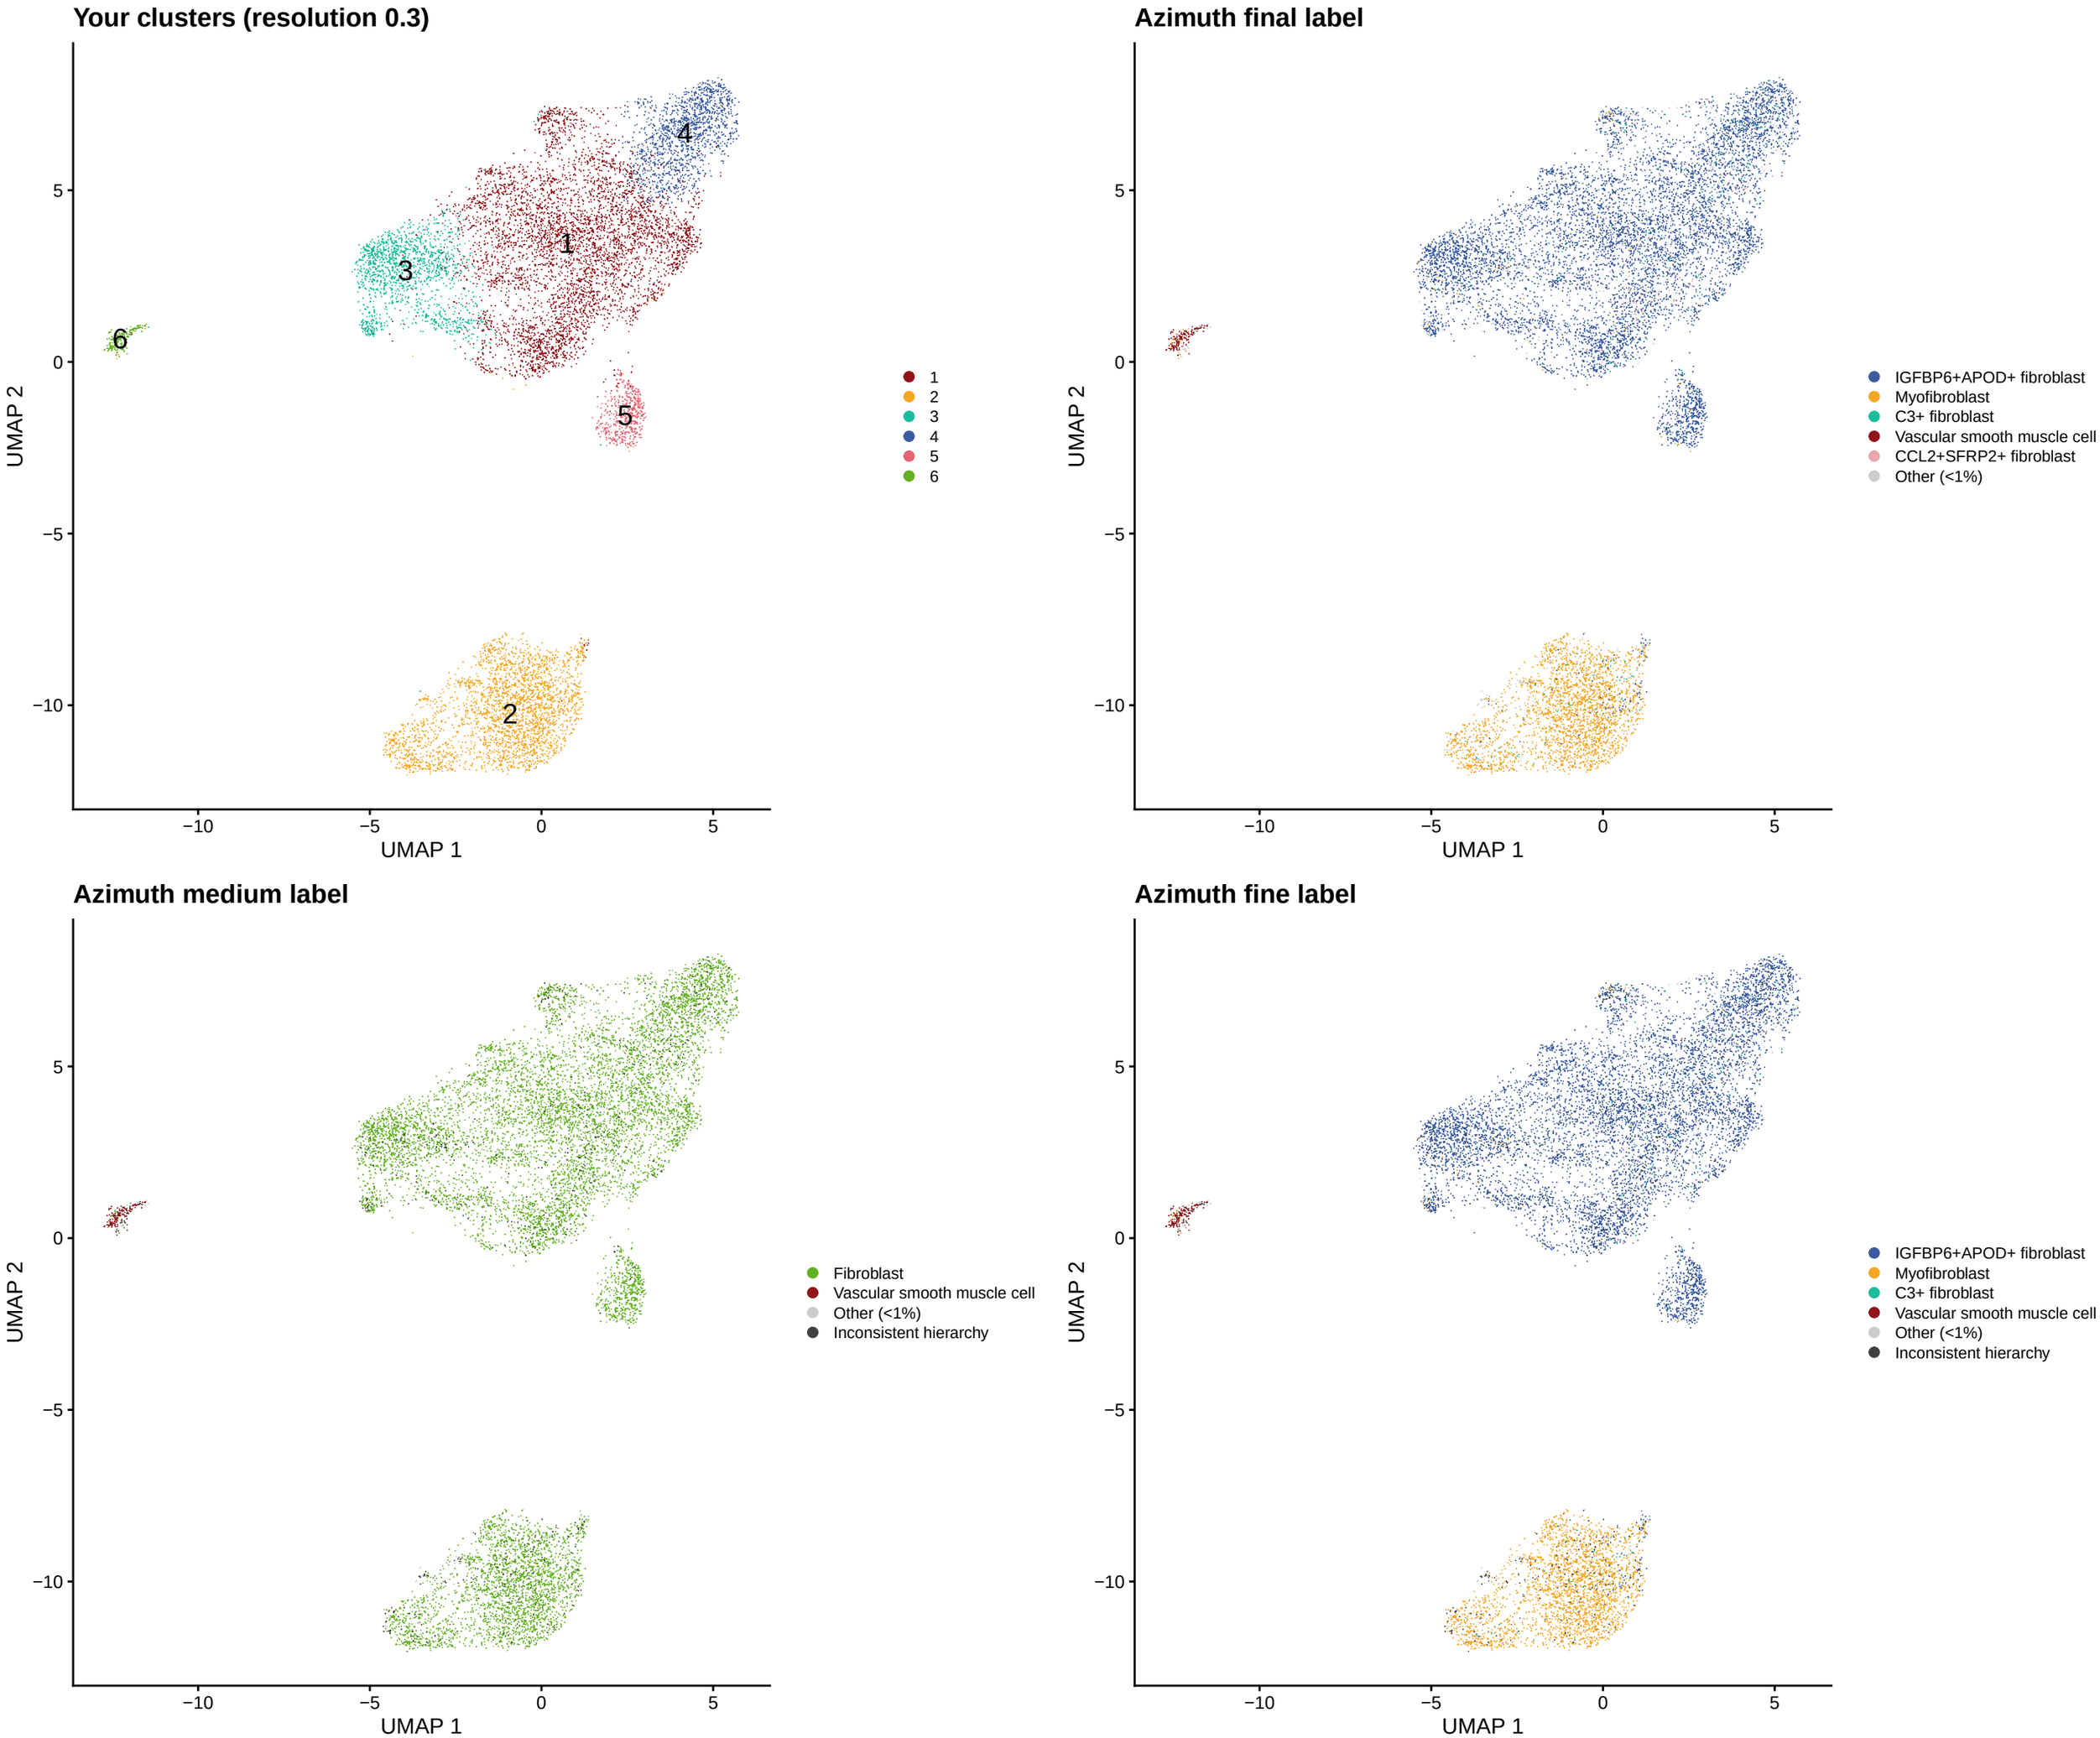

Pan−human Azimuth v1, run locally; pig features enter through verified one−to−one Ensembl 116 orthologues, unmapped model genes are zero−filled. Exploratory cross−species labels.
